## CROCODILE M/T

- Curved and streamlined design assisting in channeling water in a rainy day and improving aesthetic feeling. With high driving and passing performance. With excellent traction and cross country performance.
- Continuous block pattern makes it easy to ride on the road.
- Variable pitch pattern with irregular arrangement, lowers the noise and provides comfortable feelings.
- Stronger ground adhesion on snow road, dirt road and normal road, excellent traction force and braking performance.
- Zigzag groove provides good traction performance in the snow and mud, and low noise emission and comfortable operation.

マッド タイヤ

## MUDSTER M/T

- Stronger sidewall, 20% more rubber in the upper sidewall to reduce the chance of sidewall damage. Thicker sidewall means tyre has higher load capacity than other brands.
- Aggressive self-cleaning tread design capability provides excellent traction while driving through deep mud.

マツト タイヤ

## MAXTRAXX

- Forward in extreme environment because it could be the strongest tyre design ever.
- Customized design, 3 polyester sidewall, 10 ply rating. With thin grooves, stone ejectors and extreme sidewall protection up to rim edge.
- Special compound offers the best performance for cutting.
- 23 degree is the ultimate angle for cutting and self cleaning.

マツト タイヤ

## EXTREME M/T

- Big teeth in the shoulder delivers extreme off road traction.
- Nylon reinforced belts provide additional strength.
- High strength belts improve steering stability and durability.
- Stone ejector in the shoulder grooves helps prevent tyre damage from stones or external impacts and enhances handling confidence.
- Deep tread of 20mm helps the best driving performance in soft terrain--our tyre will never let you down.

# TRACKMASTER

- Customized design with Australian map, not only cosmetic item , but it is carefully designed .
- Extra loading, traction and mileage , for example, 37X12.50R17 loading index is 131, much higher than regular 124.
- High turn-up 3 ply polyester casing strengthens tire to provide excellent handing and durability while maintaining proper load capacity.
- 23 degree is the ultimate angle for cutting and self cleaning .
- Stone ejector in the shoulder grooves help prevent tyre damage from stones or external impacts and enhances handling confidence.

# ALLIGATOR M/T

- Special construction design and supple sidewall provide excellent traction when driving through deep gumbo mud.
- Open block tread design enhances mud digging and self cleaning capabilities for superior traction in mud conditions.
- Specially formulated tread design compound minimizes tread cutting and chipping to provide superior traction.
