**FIRE
STRYKER**
Just one strike and the fire is out!

FIRE STRYKER

Just one strike and the fire is out!

Household use: Model 5B

Specifications:

- Emission Time: 25 Seconds
- Length: 25.4cm
- Diameter: 3.3cm
- Weight: 230 grams

The Fire Stryker is efficient

The Fire Stryker flame inhibitor is a simple and easy way to ensure that you are prepared in the event of a fire in your home, your office or your vehicle. It weighs far less than a conventional fire extinguisher and can operate for longer. And best of all, there is NO residue left behind after use.

FIRE STRYKER

Just one strike and the fire is out!

Professional use: Model 8B

Specifications:

- Emission Time: 50 Seconds
- Length: 25.9cm
- Diameter: 3.3cm
- Weight: 275 grams

The Fire Stryker is safe

Small and light weight, the Fire Stryker is environmentally friendly and can safely be stored for easy access in an emergency. The Fire Stryker flame inhibitor will help you to contain a fire, preventing it from becoming a threat to life or property.

Warning: Do not touch metal cylinder before and after use due to risk of burn. Keep out of reach of children. Do not point aerosol jet at people. The product does not extinguish live coal. Do not disassemble.

FIRE STRYKER

Just one strike and the fire is out!

Industrial use: Model 13B

Specifications:

- Emission Time: 100 Seconds
- Length: 32.8cm
- Diameter: 3.3cm
- Weight: 550 grams

The Fire Stryker is economical

No servicing, refilling, checks or maintenance. No danger from pressurized containers which can explode or malfunction. Store the Fire Stryker flame inhibitor in an easily accessible place. Point the nozzle at the base of the flames to smother the fire at its core.

Extinguishes Class A (solid combustible), Class B (liquid and gas combustible) and Class C (electrical fires on equipment up to 1000V/40kW) flames.
